3. The "Narrative" Bio (250 Words)

Best for: Media kits, formal press releases, and "Meet the Expert" feature articles.

Don Folden Sr. is a facilitator, author, and the visionary creator of **The Truth Conductor™**. His journey didn't begin in a corporate boardroom; it began in the heart of Washington, D.C., where he spent more than six years on the front lines of American division. Standing as a witness to the accelerating decay of civil discourse, Don realized that the goal of a conversation shouldn't be 'intellectual conquest,' but the preservation of human connection.

As a lover of provocative debate, Don maintains that the healthiest environments are those where people can fight fiercely for their beliefs while remaining anchored in radical dignity. He has transformed this philosophy into **The Civil Discourse Framework™**, a teachable, repeatable methodology built on five core pillars: **Dignity, Listening, Curiosity, Discipline, and Dialogue**.

Today, Don serves as a 'Conductor' of truth, teaching leaders and organizations how to navigate high-stakes conflict without descending into dehumanization. His framework provides the emotional guardrails and communicative architecture necessary to trade 'gotcha' moments for genuine breakthroughs.

Whether he is consulting with executives or speaking to community leaders, Don't just teach people to talk; he teaches them to hear. He remains a steadfast advocate for the belief that we can disagree fundamentally without surrendering our respect for one another. Through The Truth Conductor™, Don is restoring the lost art of human connection, proving that our shared humanity is far more powerful than our political differences.
